Gentlemen:

We are conducting a survey of recording microdensitometers. As the first step in the survey, we would appreciate it if you would provide us with data pertinent to recording microdensitometers produced or distributed by your firm.

In order to complete our evaluation, we may subsequently wish to conduct a test using your instrument and would, therefore, like to know if and where an instrument would be available for about 4 to 8 hours for testing.

Your cooperation will be greatly appreciated.

Sincerely yours,

  
Systems Research Department
